REMARKS

In order to obviate the double patenting rejection of claims 18-37, applicant submits herewith a Terminal Disclaimer signed by an attorney of record, the papers appointing the undersigned as attorney of record, Forms PTO/SB/81 and PTO/SB/96, being also attached herewith.

Each of new claims 38-54 is respectfully submitted to clearly patentably distinguish over the references of record in applicant's prior patent 6,404,325 issued June 11, 2002. Applicant will submit an Information Disclosure Statement with reference to the new claims as promptly as possible.

New claims 38-54 are supported for example by the new sections of text being added by the present Response, at page 12 of the specification

Declaration Re the Material Being Added at Page 12 of the Specification

The undersigned hereby declares that the first section of text being added at page 12 of the specification is the same material as the text found in the Provisional Patent Application No. 60/070,758 at page 1, said Provisional Application having been incorporated by reference at page 1 of the present specification, the last three lines of the CROSS REFERENCES TO RELATED APPLICATIONS section, and that the second section of text being added at page 12 of the specification after the first section of text is the same material as the text found in the Provisional Patent Application No. 60/495,940 at pages 76-78, said Provisional Application 60/495,940 having been incorporated by reference at page 15 of the present specification as filed, the tenth line from the bottom of the page to the sixth line from the bottom of the page, (Attorney Docket 203117PA), so that no new matter is being added. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
